

50 Miles for MS

The 10 anniversary of the Cape Cod Challenge Walk included walkers from throughout the country, including 17 challenge walkers from Upstate New York who spent many months training and fundraising for this unforgettable event. These 17 walkers challenged themselves to go the distance and **walked 50 incredible miles over 3 days** in beautiful Cape Cod, MA on September 9-11.

Teams traveled from many areas in our chapter: Buffalo, Rochester, Albany, Poughkeepsie and Ithaca just to name a few. We would like to thank all our Challenge Walkers for their hearty commitment to creating a world free of MS. We hope many more of our chapter constituents will join them again next year in Cape Cod to
